Lloyd's Register of Shipping.

The Committee desire to draw the attention of Subscribers to the fact that with a view to reducing the bulk of the Steamer Volume of the Register Book the particulars relating to Trawlers, Drifters, and other fishing vessels have been transferred to the Sail Volume, and now form a separate section therein.

The Trawler section, which has a separate numeration and a supplementary section for new entries and changes of name, appears immediately after the Sailing Ship Supplement.

In the current Register the numeration starts at 45001 (A in Sail); continues at 52001 (A in Steam) and finishes at 85840 (Z in Trawlers).

Vessels entered in the Supplementary portion will be similarly numbered as part of the same series, A in the Supplement—Sail—starting with 50961; A in the Supplement—Steam—starting with 77901; and A in the Supplement—Trawlers—starting with 86001.

It will be observed that a List of Frozen Meat Stores (of 30,000 cubic feet and above) in the United Kingdom, including also certain stores abroad which have been inspected and satisfactorily reported upon by the Surveyors to Lloyd's Register, appears in the supplementary sections and immediately follows the List of Vessels with Refrigerating Appliances.

ANDREW SCOTT,
Secretary.

*** Additional Ships are inserted in the Supplement at the end of the Register

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
